Order confirmation

Thank you for your order, Jorge Vazquez.

This email confirms the receipt of your recent order with us. Please print it out for your records. A PDF invoice will also be sent to you subsequently. We send invoices out in batches about once a week, usually on Wednesdays. ALL AMOUNTS ARE IN U.S. dollars.

A follow up email will be sent with your registration keys(s). If you've ordered a floating or node-locked license, the next email will ask you for the information we need to get you set up. Normally we send the subsequent email within 30 minutes or so, but please allow up to two business days. The registration key is 16 characters that often trigger spam filters, so please make sure to check your spam folder for your registration key if it appears you have not received it.

When you receive your registration key, please keep in a safe place because you will need it for any free updates. Updates will be periodically posted on the www.revisionfx.com website.

Nothing physical will be shipped to you. All of our software is available via electronic download only.
